CARBONHYDRATE PROJECT APPROVAL

Reference - NSGA-7496

1. Project CARBONHYDRATE is hereby approved for the period 1 January-30 June, 1961. The sum of \$300 West Mark is allocated for compensation to cover this period.

2. Previous progress reports have emphasized the great interest CARBONHYDRATE displayed in obtaining monthly food packages, and all previous FPOs have included the cost of such supplies in addition to salary expenditures. No request for supplies is included in NSGA-7496. Since the basic salary requested for the first half of 1961 is no greater than in the past, we would like to know how the question of extra food supplies has been settled. Since CARBONHYDRATE is living in the Soviet Section of Berlin, it seems unlikely that he no longer needs such supplies. Please advise whether this new arrangement is based on better security precautions, is the result of a discussion on equitable compensation between the case officer and the agent, or whether possibly CARBONHYDRATE is negotiating his income in such a manner that it is no longer necessary to obtain food packages from us.
